

PENTEK® MICROGUARD® SERIES MEMBRANE FILTER CARTRIDGE

IDEAL FOR POINT-OF-USE APPLICATIONS

Pentair® Pentek® MicroGuard™ Series membrane filters provide safer and cleaner drinking water without incorporating chemicals into the media or adding chemicals to the filtered water.

The MG-10MCB is uniquely designed with integral carbon block and sediment pre-filtration for the reduction of chlorine taste & odor and for providing extended life of the internal membrane element. This cartridge has 2.5 times greater filtration surface area than some anti-microbial carbon blocks, and operates at a higher flow rate with lower pressure drop. This makes the MG-10MCB ideal for Point-of-Use (POU) applications.

The MicroGuard cartridges do not require USEPA registration and their effectiveness is not susceptible to common substances normally found in some waters.
