

**eVOQUA**  
WATER TECHNOLOGIES

Retrofit any chain system from cast chain & wood flight to non-metallic systems

## ENVIREX® CHAIN AND SCRAPER AND DAF RETROFITS AND REHABS

**INCREASE PERFORMANCE, REDUCE MAINTENANCE, EXTEND LIFETIME**

### At Your Service:

- On-site inspection and quotation services
- Personnel training & maintenance guidelines
- Component standardization, upgrades and installation assistance
- Turnkey replacements available
- Retrofit of any manufacturer's equipment

### Product Options:

- Primary & secondary rectangular clarifiers and DAF Thickeners
- Multiple options for carrier & drive chains
- Non-metallic components for all applications

### Application Expertise:

- Municipal water & wastewater treatment
- Industrial wastewater treatment (Refinery, Petrochemical, Landfill Leachate, and Pulp & Paper)

an eVOQUA brand

**Trust the inventors of non-metallic components**

Collector Chain NCS720S - The worldwide standard for molded chain

High-strength Loop Chain for heavily loaded tanks and tanks over 200 feet long

## RETROFIT, REHAB AND UPGRADE SOLUTIONS

### TURNING WHAT YOU HAVE INTO WHAT YOU WANT

Evoqua's wastewater equipment business is rooted in the first chain system applied to a wastewater plant. A REX® system from the Chain Belt Company, a precursor to Envirex®, was installed in 1910 and operated for almost seventy years with the support of our experts and aftermarket services.

Our team has helped develop successful water and wastewater treatment systems for over 100 years using well known technologies. Our industry leading database of OEM drawings provides for faster, more cost effective and responsive project execution.

#### OEM Brands You Know

Envirex® | Davco™ | Jet Tech | Link-Belt® | REX® | PFT | Lyco

Circular Clarifiers | Chain & Scrapers | Disc Filters | Sand Filters | Anaerobic Digestion  
Brush Rotors Conversions | Disc Aerators | Screw Pumps | RBCs | Field Erect Plants
